

I would like to comment on the new LPFM service being contemplated. The K-LOVE service is quite necessary in our area being one of the few radio stations that is family oriented. It is very important to my family and friends that our children do not hear cussing or vulgar language while listening to the radio, K-LOVE gives us this opportunity. If K-LOVE were to be displaced I'm afraid we wouldn't be able to listen to good, wholesome music while traveling anymore, only cd's and tapes. We feel that K-Love's mission and service promotes healthy family relationships and gives the public a positive resource for listening to music.
